

Having Problems Viewing your Courses on OurVLE?

Some users may have an extraordinarily long list of courses on their OurVLE profile. This may occur for a number of reasons. The main one being that you may be accessing Semester 2 courses, Semester 2 Examination Only Containers (EOCs), Summer School containers and EOCs along with other portals or containers.

The maximum number of courses that can be seen on the OurVLE main page at any one time is fifteen (15). If you have access to more than 15 containers or portals you will not see them all at once when you log on.

Please follow the steps below to see all your course containers;

1. Log onto OurVLE.
2. Locate the **Navigation** block on the left hand side of the OurVLE main page.

3. Within the Navigation block click on **My Courses**. Once you do this you will see a listing of all the courses that you have access to appear in a vertical menu. You can click on any of those links to be taken to the respective course container.
4. In the middle of the page you will see the Course Overview for all the courses. To see for all courses scroll down and click on “(Show all courses)”
